SCORES PAGE

3. **To access Scores** page click hyperlinked (- -) in the applicable grade column. Specific and helpful information about student progress is on the **Scores** page. There you will find **Due Date, Category, Assignment, Codes, Scores, and information about outcomes and assessment methods**. Additionally, comments and symbols appearing on the **Scores** page present a profile of student work habits, indicating late or missing assignments.

A "Final Grade" will not appear until the end of the course. Teachers use best evidence of student learning to determine final grades. Students who demonstrate improved performance later in the course will see best evidence of learning reflected in their grade.

Refer to the marks, comments or scores on individual assessments or assignments. Encourage students to complete missing work and to target weaker areas for improvement.

The **Codes** provided on the **Scores** page are as follows:

- ✓ **Collected**- shows assignment has been collected by the teacher
- ✗ **Assignment is not included in final grade**-the teacher may be using this assignment as a formative (practice) assessment or the teacher may, for a number of reasons, have chosen not to include this mark in the student's grade
- Ex **Exempt**-the score for this assessment will not be included in the grade
- L **Late**-the student completed the work late
- M **Missing**- the assignment has not yet been submitted to the teacher

Other codes used by the teacher may appear. The explanations for these codes are provided in the description at the top of the Scores page. If not, please contact the teacher.
